Harmonic Resolution Systems (HRS) offer products ranging from damping plates to isolation shelves and full racks as advanced and sophisticated as the electronics they are designed to hold.

They are the best that we have heard in 30+ years.

We decided to place our Basis Signature Debut Vacuum turntable on the HRS rack and turntable isolation base, and our reference analog source was reborn.

Individually, HRS products will produce a significant improvement in audio signal quality. Used collectively as a complete isolation system, the changes will likely redefine what you thought was possible.

Visit Goodwin's High End and our six, reference-quality listening rooms. Audition the simple, elegant solution of providing maximum mechanical stability for your components.

781-893-9000 • 899 Main Street • Waltham, MA 02451

**As always, no hurry, no pressure.**
